# How to pair your wristband

Find the wristband section in your reydux profile. Simply click on the “Add wristband” card and start the pairing process.

01/04

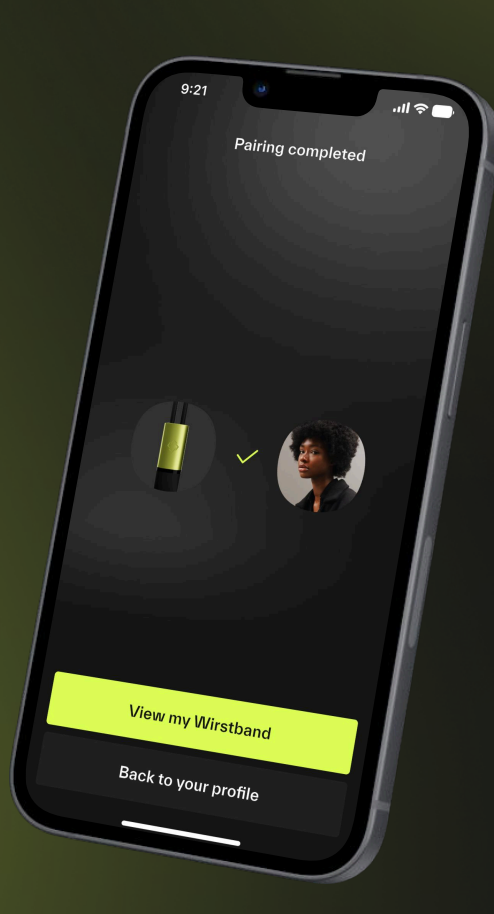

This shows the NFC chip location for proper wristband positioning.

02/04

Place the wristband on your phone's NFC reader. If unsure where it is, just google.

03/04

Follow the steps: confirm the wristband, assign it to your account and it will appear in your profile.

## How to put on your wristband

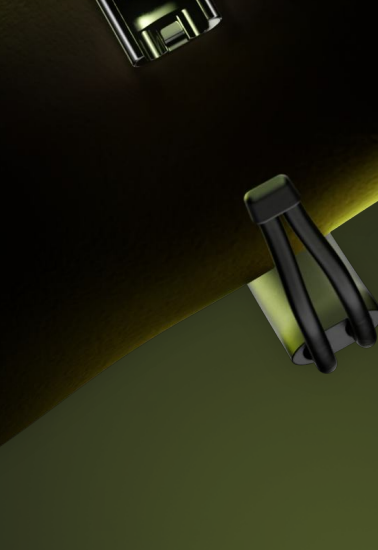

Turn your wristband around so that  
you are looking at the closure.

01/05

Pull up the lid of the closure and pull  
out the two laces.

02/05

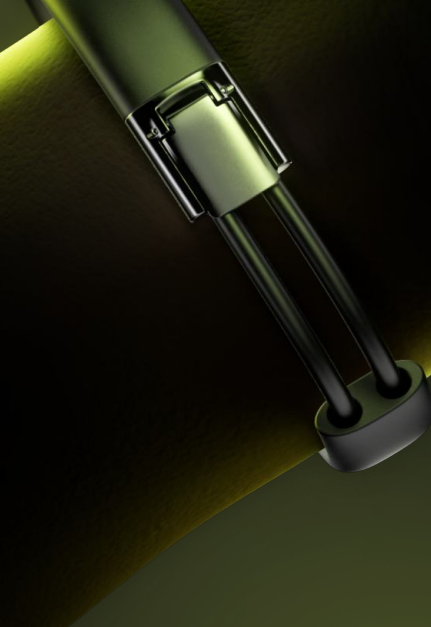

Put the wristband around  
your wrist.

03/05

Slide the laces back into  
the closure.

04/05

Adjust the fitting and close the lid.  
You are now ready to enjoy your  
LiveTime wristband.

## How to customize your wristband

Hold your wristband facing the

Core Element.

01/05

Push the Core Element to the side in

the direction of the laces.

02/05

Release the laces underneath and

slide the Core Element off.

03/05

Slide your collectibles onto the

laces in the same way and add the

Core Element as the last piece.

04/05

Press the laces back underneath

the uncovered part and slide the

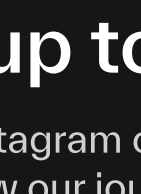

Core Element back into its original

position.
